ABSTRACT

This document compiles 11 individual summaries of Catholic school curriculum standards in Alberta, Canada, for Kindergarten through grade 9 and senior high school. Intended for parents as a companion to the Alberta Curriculum Guides, the summaries use an "at a glance" schematic to list the curricular goals for each subject area. In addition to English language arts, mathematics, and science, subject areas include social studies, physical education, health and life skills, fine arts, and languages other than English, with variations depending upon grade level. Each summary also lists sources for additional information. (HTH)

Reproductions supplied by EDRS are the best that can be made
from the original document.

Alberta
LEARNING

KINDERGARTEN AT-A-GLANCE

CREATIVE AND CULTURAL EXPRESSION

- Explore self-expression through creative thought, language, movement, music and drama.
- Solve problems and use past experiences to develop new ideas.
- Become aware of various forms of expression, cultural groups and traditions.

ENGLISH LANGUAGE ARTS

Comprehend and respond to various kinds of texts
- connect oral language with print and pictures
- identify rhyming words in oral language
- draw records or tell about ideas and experiences

Communicate clearly
- form some recognizable letters
- connect letters with sounds in words
- follow one- or two-step instructions

Manage ideas and information
- ask questions to satisfy curiosity and make sense of information
- share new learnings with others.

Respect and support others
- participate in class and group activities
- find ways to be helpful to others.

Explore thoughts, ideas, feelings and experiences
- talk about favourite books, songs, poems, pictures
- listen to others
- connect related ideas and information.

PHYSICAL SKILLS AND WELL-BEING

Activity
- Dance
- Games
- Types of gymnastics
- Individual activities
- Activities in alternative environments.

Develop basic locomotor, nonlocomotor and fine motor skills.

Develop attitudes and behaviours that promote a healthy lifestyle, wellness and safety for self and others.

Assume responsibility to lead an active daily life.

PERSONAL AND SOCIAL RESPONSIBILITY

- Show positive attitudes and behaviours toward learning.
- Contribute to group activities.
- Develop positive relationships with others.
- Accept and practise responsibility.
- Express feelings in socially acceptable ways.
- Demonstrate awareness of positive relationships with family and friends.
- Demonstrate and practise independence.

MATHEMATICS

Number Concepts and Operations
- describe, orally, and compare quantities from 0 to 10
- show awareness of addition and subtraction.

Shape and Space
- show awareness of measurement use
- explore the properties of simple shapes and real-world objects
- sort, classify and build real-world objects.

Statistics and Probability
- collect and organize, with assistance, data based on first-hand information
- compare data, using more, less, the same.

Patterns and Relations
- identify and create patterns from daily experiences.

COMMUNITY AND ENVIRONMENTAL AWARENESS

- Become aware of materials in the environment and how they are used.
- Recognize similarities and differences between self and others.
- Show curiosity and willingness to learn about the environment and community.
- Explore familiar places and things in the environment and community.

RELIGIOUS EDUCATION
- "In God's Image"—uses the existing special moments and experiences of young children and affirms their religious importance.

INFORMATION AND COMMUNICATION TECHNOLOGY (ICT). The ICT curriculum is not intended to stand alone as a course, rather to be infused in instructional activities.

Welcome to Kindergarten

Entering Kindergarten is an exciting time for children. Parents and teachers work together to make the transition from home to school as smooth as possible.

Learning in Kindergarten

The curriculum, or *Kindergarten Program Statement*, is developed by Alberta Learning in consultation with early childhood educators. It describes what young children need to learn to prepare for entry into Grade 1, and provides a foundation for later grades. Children accomplish these learnings not only in the Kindergarten program, but also in their homes and communities.

Teachers use the curriculum to plan learning activities that meet the Kindergarten children's needs and abilities, and to assess their progress. The Kindergarten area is a busy and ever-changing place, with a variety of learning centres.

Supports for learning includes special needs programming and early literacy assistance.

Information for Parents

Parents can access information about the Kindergarten program in a variety of ways:

- your child's teacher or school
- Curriculum Summary
- Curriculum Handbook
- the Kindergarten page on the Alberta Learning Web site.

How Can I Help My Child?

- Be involved in the Kindergarten experience as much as you can.
- Keep in contact with your child's teacher so you are both informed about your child's progress and development.
- Talk with your child about their experiences in Kindergarten.
- Encourage your child through at-home activities, such as bedtime reading, listening to music, making decisions by offering choices, practising motor skills such as throwing and catching, drawing, cutting and doing puzzles.

Religious Education

Religious Education is an essential and integral part of the life and culture of a Catholic school. For more information, contact the local school board.

Languages Other than English

- Blackfoot
- Cree
- French
- Spanish
- Ukrainian
- Other

These languages may be available at your child's school. For more information, contact the local school board.

GRADE 1 AT-A-GLANCE

HEALTH AND LIFE SKILLS

- Relationship Choices
  - recognize and demonstrate various ways to express feelings.
- Life Learning Choices
  - define a goal, and recognize that setting goals helps accomplish tasks.
- Wellness Choices
  - demonstrate positive hygiene and health care habits.

ENGLISH LANGUAGE ARTS

- Comprehend various kinds of texts
  - write and tell brief narratives about own ideas and stories
  - identify high frequency words by sight
  - read aloud after rehearsal.
- Manage ideas and information
  - connect information from various texts
  - follow spoken directions for gathering ideas and information
  - find and categorize information.
- Communicate clearly
  - print legibly, left to right, using lines on a page
  - explore keyboard skills
  - write simple statement showing awareness of capital letters and periods.
- Respect and support others
  - listen to the ideas of others
  - take turns sharing ideas and information
  - work in partnerships and groups.
- Explore thoughts and ideas
  - make observations about activities and experiences depicted in texts
  - experiment with different ways of looking at stories and ideas
  - read and write with others.

PHYSICAL EDUCATION

- Benefits Health
  - learn about nutrition and exercise.
- Activity
  - Dance
  - Games
  - Types of gymnastics
  - Individual activities
  - Activities in alternative environments.
- Cooperation
  - learn and play by the rules.
- Do it Daily...for Life!
  - play student-created games.

SCIENCE

- Seasonal Changes
- Creating Colour
- Senses
- Building Things
- Needs of Animals and Plants

SOCIAL STUDIES

- My Family
- My School
- Other Canadian Families

OPTIONAL SUBJECT AREAS

- Languages Other than English
- Drama

MATHEMATICS

- Number Concepts and Operations
  - recognize and work with whole numbers from 0 to 100
  - explore halves
  - add/subtract to 18
  - read number words to 10.
- Shape and Space
  - estimate, measure and compare using whole numbers
  - explore the properties of 2-D shapes and 3-D objects
  - estimate and order objects by length, height and distance around.
- Statistics and Probability
  - collect, organize and describe data based on first-hand observation
  - describe concepts of chance and chance events in ordinary language
  - predict using never, sometimes and always.
- Patterns and Relations
  - identify, create and compare patterns arising from their daily experiences
  - begin to recognize patterns in their environment.

ART

- Depiction
- Reflection
- Expression
- Composition

SUPPORTS FOR LEARNING

- Early Literacy
- Distance Learning
- English as a Second Language (ESL)
- Special Needs

MUSIC

- Melody
- Form

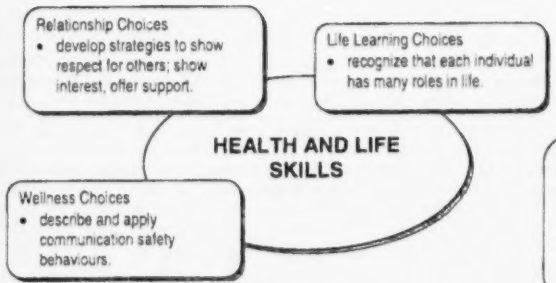
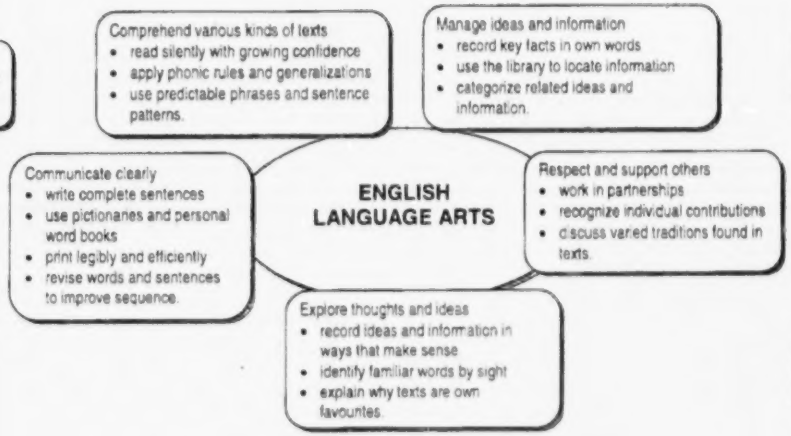
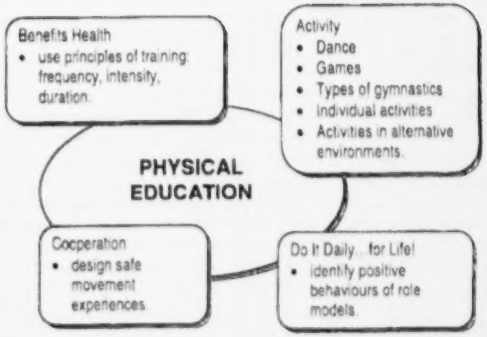
GRADE 2 AT-A-GLANCE

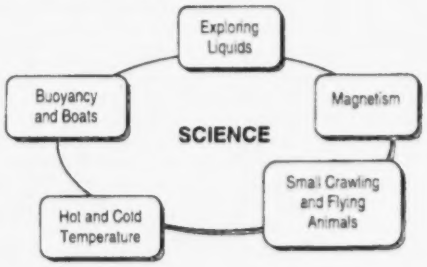


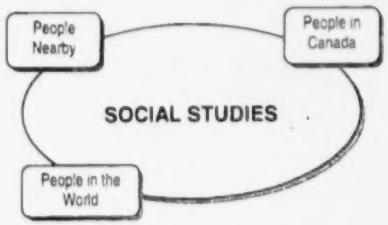
Relationship Choices
• develop strategies to show respect for others; show interest, offer support.
Life Learning Choices
• recognize that each individual has many roles in life.
HEALTH AND LIFE SKILLS
Wellness Choices
• describe and apply communication safety behaviours.

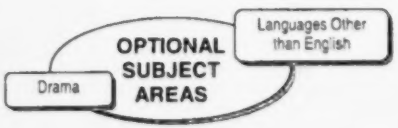


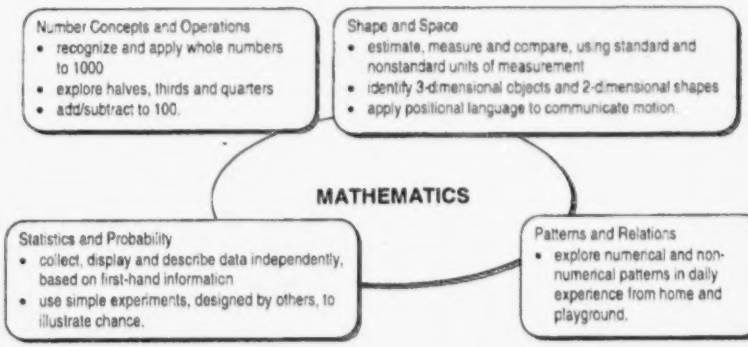
Comprehend various kinds of texts
• read silently with growing confidence
• apply phonic rules and generalizations
• use predictable phrases and sentence patterns.
Manage ideas and information
• record key facts in own words
• use the library to locate information
• categorize related ideas and information.
Communicate clearly
• write complete sentences
• use pictionanes and personal word books
• print legibly and efficiently
• revise words and sentences to improve sequence.
ENGLISH LANGUAGE ARTS
Respect and support others
• work in partnerships
• recognize individual contributions
• discuss varied traditions found in texts.
Explore thoughts and ideas
• record ideas and information in ways that make sense
• identify familiar words by sight
• explain why texts are own favourites.



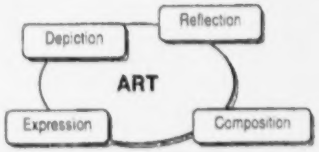


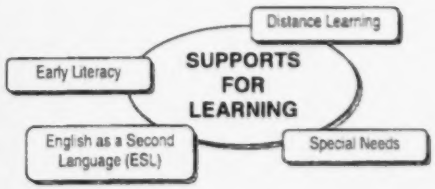


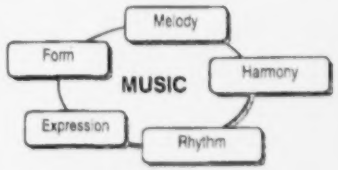




Number Concepts and Operations
• recognize and apply whole numbers to 1000
• explore halves, thirds and quarters
• add/subtract to 100.
Shape and Space
• estimate, measure and compare, using standard and nonstandard units of measurement
• identify 3-dimensional objects and 2-dimensional shapes
• apply positional language to communicate motion.
MATHEMATICS
Statistics and Probability
• collect, display and describe data independently, based on first-hand information
• use simple experiments, designed by others, to illustrate chance.
Patterns and Relations
• explore numerical and non-numerical patterns in daily experience from home and playground.







RELIGIOUS EDUCATION
- "We Belong to the Lord Jesus"—invites students to explore their relationship with Jesus through the celebration of the Eucharist (the Mass).

INFORMATION AND COMMUNICATION TECHNOLOGY (ICT). The ICT curriculum is not intended to stand alone as a course, rather to be infused in core courses and programs.

Information for Parents

Parents can access information about the curriculum and learning resources in a number of ways:

Relationship Choices
• demonstrate safe and appropriate ways for sharing and/or expressing feelings.
Life Learning Choices
• develop and demonstrate test-taking skills.
Wellness Choices
• identify strategies to avoid being bullied.
ENGLISH LANGUAGE ARTS
Comprehend various kinds of texts
• use grammatical knowledge to predict words and sentence structures
• read silently with confidence/accuracy
• summarize the main idea of texts.
Manage ideas and information
• identify main ideas and details in texts
• use text features to access information
• put ideas and information into short paragraphs.
Communicate clearly
• begin to learn cursive writing
• edit for complete and incomplete sentences
• use keyboarding skills
• identify and use a variety of sentence types.
Respect and support others
• demonstrate respect for ideas and abilities of others
• work cooperatively in groups
• contribute ideas and information.
Explore thoughts and ideas
• explain new concepts in own words
• choose the appropriate oral or written forms to communicate
• relate own ideas/perspectives to new understandings.
PHYSICAL EDUCATION
Benefits Health
• understand interaction of nutrition, fitness and physical activity.
Activity
• Dance

CURRICULUM SUMMARY

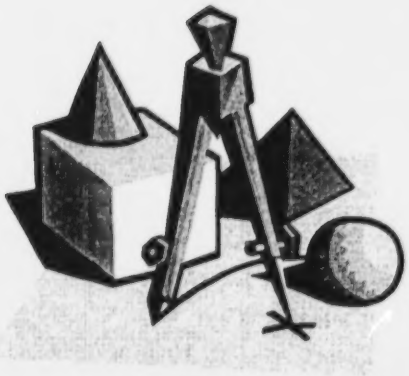
Grade Five

2003–2004



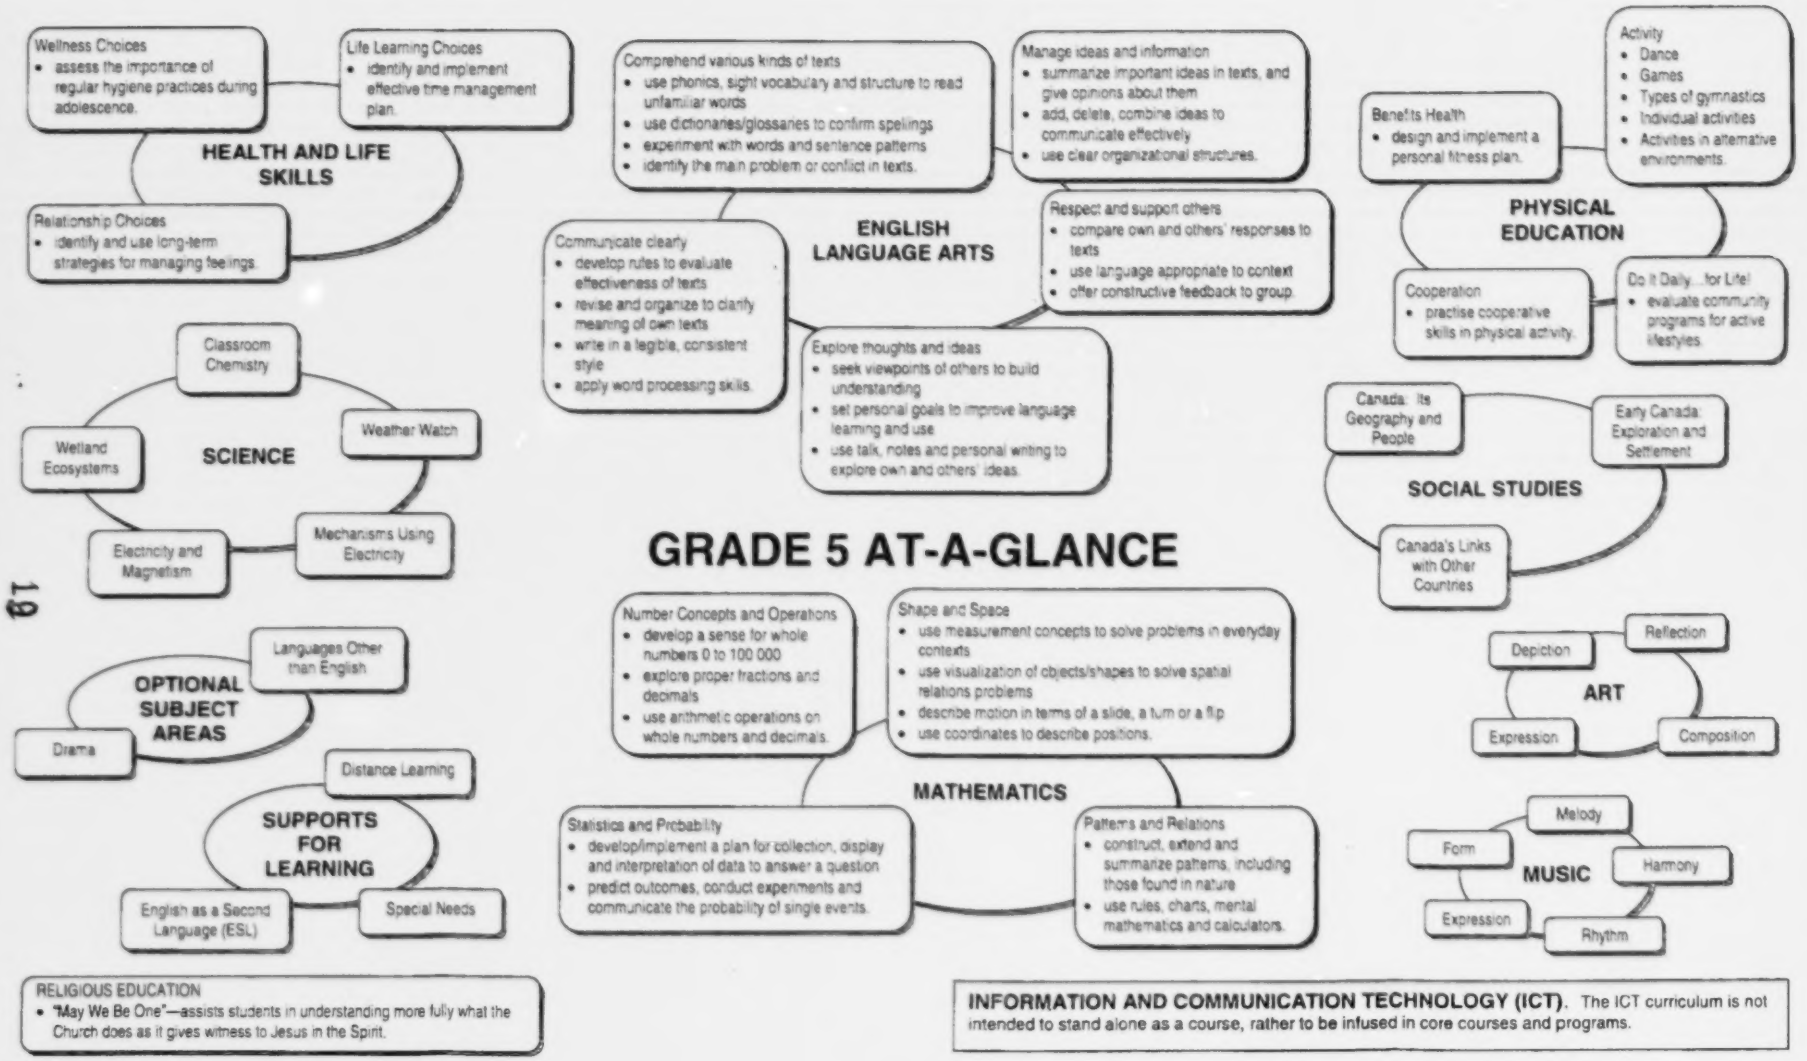
Catholic School Version

ED 031647

Alberta LEARNING

BEST COPY AVAILABLE

GRADE 5 AT-A-GLANCE



HEALTH AND LIFE SKILLS
Wellness Choices
• assess the importance of regular hygiene practices during adolescence.
Life Learning Choices
• identify and implement effective time management plan.
Relationship Choices
• identify and use long-term strategies for managing feelings.
ENGLISH LANGUAGE ARTS
Comprehend various kinds of texts
• use phonics, sight vocabulary and structure to read unfamiliar words
• use dictionaries/glossaries to confirm spellings
• experiment with words and sentence patterns
• identify the main problem or conflict in texts.
Manage ideas and information
• summarize important ideas in texts, and give opinions about them
• add, delete, combine ideas to communicate effectively
• use clear organizational structures.
Communicate clearly
• develop rules to evaluate effectiveness of texts
• revise and organize to clarify meaning of own texts
• write in a legible, consistent style
• apply word processing skills.
Respect and support others
• compare own and others' responses to texts
• use language appropriate to context
• offer constructive feedback to group.
Explore thoughts and ideas
• seek viewpoints of others to build understanding
• set personal goals to improve language learning and use
• use talk, notes and personal writing to explore own and others' ideas.
PHYSICAL EDUCATION
Activity
• Dance
• Games
• Types of gymnastics
• Individual activities
• Activities in alternative environments.
Benefits Health
• design and implement a personal fitness plan.
Cooperation
• practise cooperative skills in physical activity.
Do It Daily...for Life!
• evaluate community programs for active lifestyles.
SCIENCE
Classroom Chemistry
Weather Watch
Wetland Ecosystems
Mechanisms Using Electricity
Electricity and Magnetism
SOCIAL STUDIES
Canada: Its Geography and People
Early Canada: Exploration and Settlement
Canada's Links with Other Countries
OPTIONAL SUBJECT AREAS
Languages Other than English
Drama
MATHEMATICS
Number Concepts and Operations
• develop a sense for whole numbers 0 to 100 000
• explore proper fractions and decimals
• use arithmetic operations on whole numbers and decimals.
Shape and Space
• use measurement concepts to solve problems in everyday contexts
• use visualization of objects/shapes to solve spatial relations problems
• describe motion in terms of a slide, a turn or a flip
• use coordinates to describe positions.
Statistics and Probability
• develop/implement a plan for collection, display and interpretation of data to answer a question
• predict outcomes, conduct experiments and communicate the probability of single events.
Patterns and Relations
• construct, extend and summarize patterns, including those found in nature
• use rules, charts, mental mathematics and calculators.

RELIGIOUS EDUCATION
- "May We Be One"—assists students in understanding more fully what the Church does as it gives witness to Jesus in the Spirit.

INFORMATION AND COMMUNICATION TECHNOLOGY (ICT). The ICT curriculum is not intended to stand alone as a course, rather to be infused in core courses and programs.

Information for Parents

Parents can access information about the curriculum and learning resources in a number of ways:

- your child's teacher or school
- Curriculum Summaries
- Curriculum Handbooks
- Programs of Study on the Alberta Learning Web site.

How Can I Help My Child At Home?

Show interest in school activities by:

- asking questions
- helping with homework and projects
- setting aside time and a place for your child to complete homework
- reading to and with your child.

Use Alberta Learning and other resources produced for parents, such as

- **The Parent Advantage**—*Tips and strategies for helping with homework in grades 1 through 9.*
- **Working Together in Mathematics Education**—*Ways parents can support student learning in mathematics.* http://www.learning.gov.ab.ca/parents/mathprbk.pdf
- **LearnAlberta.ca Web site**—*Online multimedia learning resources that directly relate to the Alberta programs of study.* http://www.learnalberta.ca
- **TELUS 2Learn Web site**—*An education–business partnership that provides Internet inservice, support and mentorship for Alberta teachers.* http://www.2learn.ca

Schooling in Alberta

Curriculum describes what students are expected to learn. Alberta Learning develops the curriculum in consultation with teachers, administrators, parents, representatives from post-secondary institutions, and professional and community groups.

Teachers use the curriculum to plan learning activities that meet their students' needs and abilities. They regularly assess student progress, reporting to parents, students and administrators.

Students write provincial achievement tests in grades 3, 6 and 9.

Religious Education

Religious Education is an essential and integral part of the life and culture of a Catholic school. For more information, contact the local school board.

Languages Other than English

- Blackfoot
- Cree
- French
- Spanish
- Ukrainian
- Other

These languages may be available at your child's school. For more information, contact the local school board.

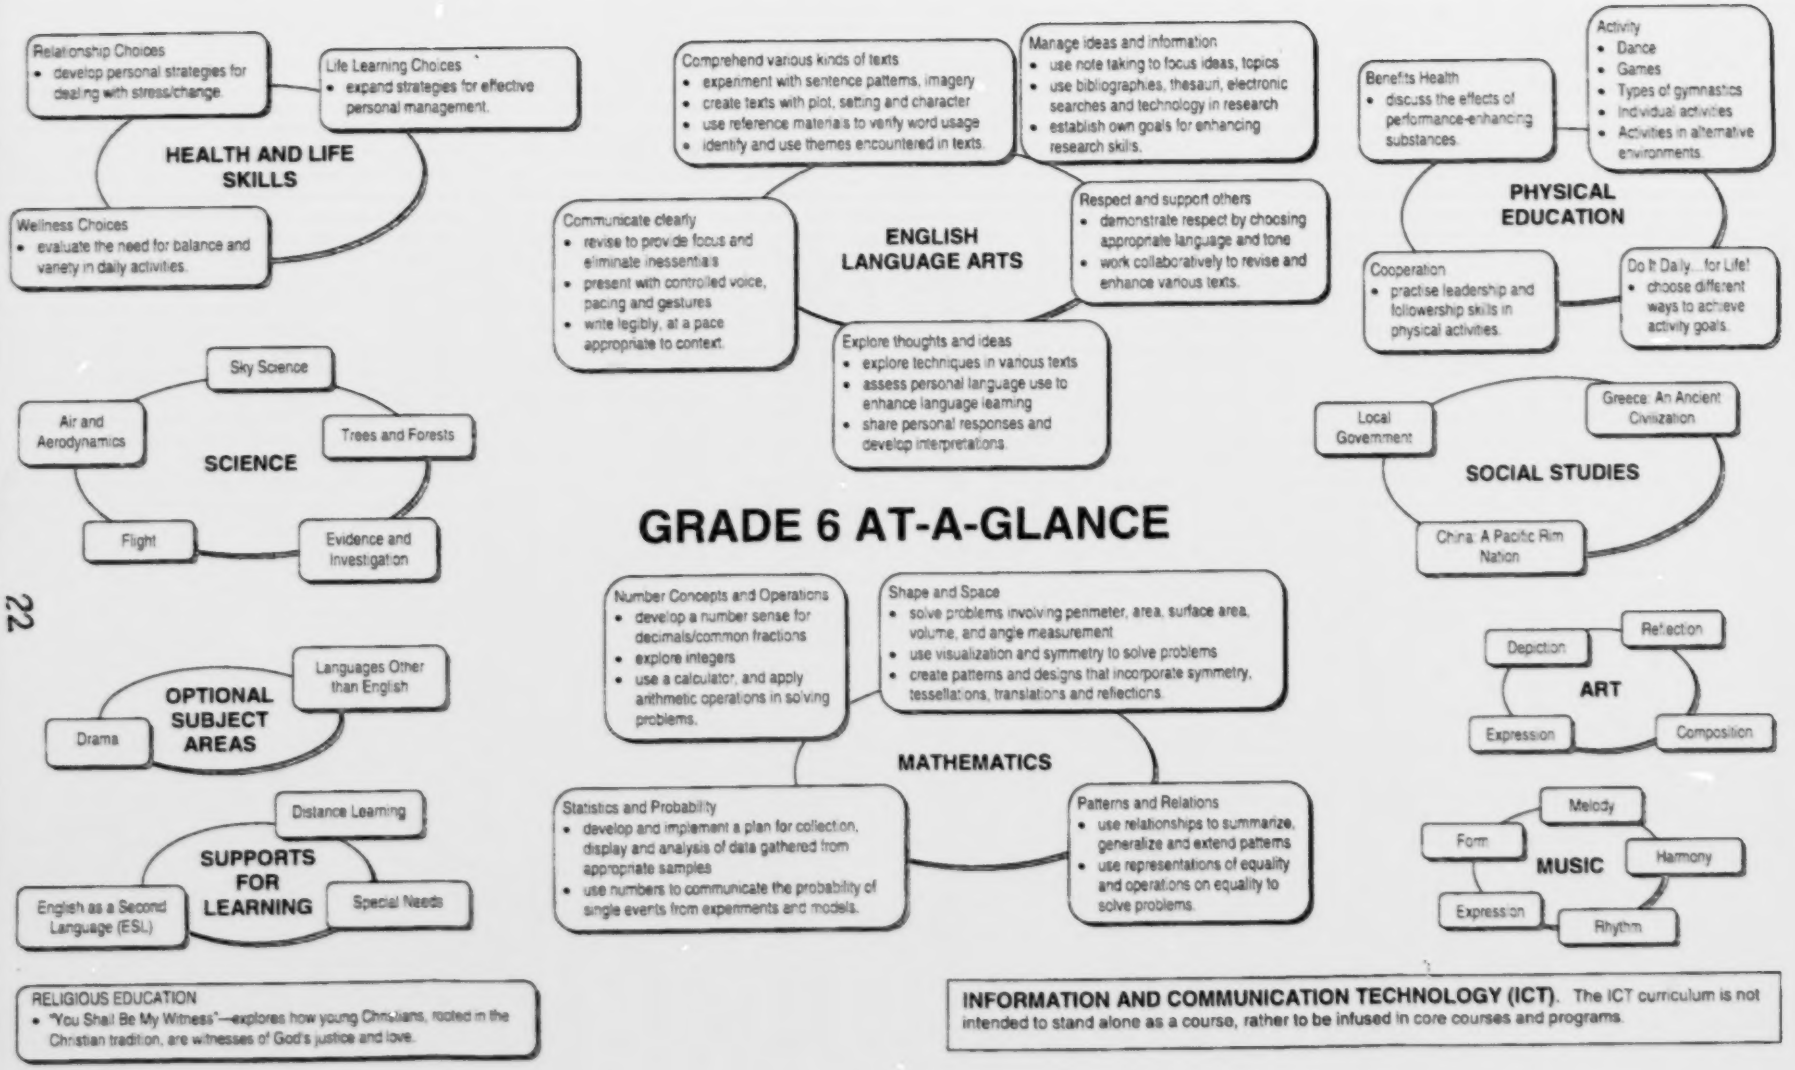
GRADE 6 AT-A-GLANCE



HEALTH AND LIFE SKILLS
Relationship Choices
• develop personal strategies for dealing with stress/change
Life Learning Choices
• expand strategies for effective personal management
Wellness Choices
• evaluate the need for balance and variety in daily activities
ENGLISH LANGUAGE ARTS
Comprehend various kinds of texts
• experiment with sentence patterns, imagery
• create texts with plot, setting and character
• use reference materials to verify word usage
• identify and use themes encountered in texts
Manage ideas and information
• use note taking to focus ideas, topics
• use bibliographies, thesauri, electronic searches and technology in research
• establish own goals for enhancing research skills
Communicate clearly
• revise to provide focus and eliminate inessentials
• present with controlled voice, pacing and gestures
• write legibly, at a pace appropriate to context
Respect and support others
• demonstrate respect by choosing appropriate language and tone
• work collaboratively to revise and enhance various texts
Explore thoughts and ideas
• explore techniques in various texts
• assess personal language use to enhance language learning
• share personal responses and develop interpretations
PHYSICAL EDUCATION
Activity
• Dance
• Games
• Types of gymnastics
• Individual activities
• Activities in alternative environments
Benefits Health
• discuss the effects of performance-enhancing substances
Cooperation
• practise leadership and followership skills in physical activities
Do It Daily...for Life!
• choose different ways to achieve activity goals
SCIENCE
Sky Science
Air and Aerodynamics
Trees and Forests
Flight
Evidence and Investigation
SOCIAL STUDIES
Local Government
Greece: An Ancient Civilization
China: A Pacific Rim Nation
MATHEMATICS
Number Concepts and Operations
• develop a number sense for decimals/common fractions
• explore integers
• use a calculator, and apply arithmetic operations in solving problems
Shape and Space
• solve problems involving perimeter, area, surface area, volume, and angle measurement
• use visualization and symmetry to solve problems
• create patterns and designs that incorporate symmetry, tessellations, translations and reflections
Statistics and Probability
• develop and implement a plan for collection, display and analysis of data gathered from appropriate samples
• use numbers to communicate the probability of single events from experiments and models
Patterns and Relations
• use relationships to summarize, generalize and extend patterns
• use representations of equality and operations on equality to solve problems

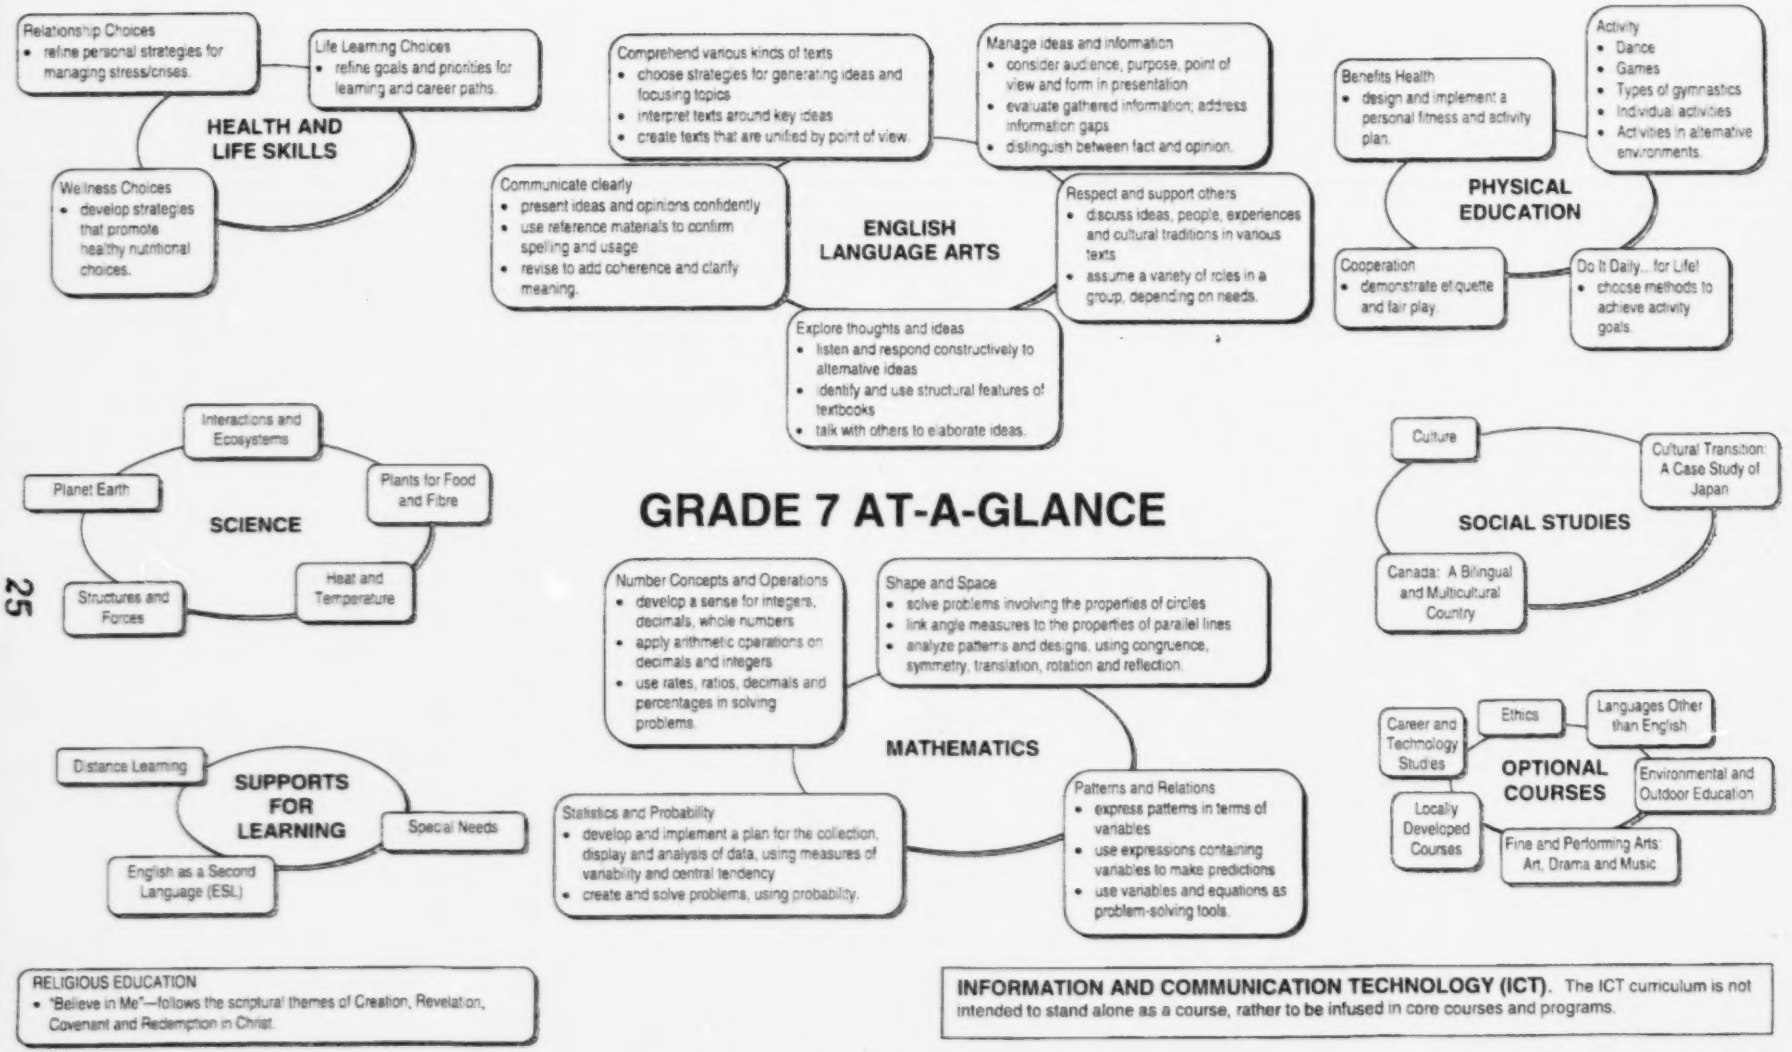
GRADE 7 AT-A-GLANCE



HEALTH AND LIFE SKILLS
Relationship Choices
• refine personal strategies for managing stress/crises.
Life Learning Choices
• refine goals and priorities for learning and career paths.
Wellness Choices
• develop strategies that promote healthy nutritional choices.
ENGLISH LANGUAGE ARTS
Comprehend various kinds of texts
• choose strategies for generating ideas and focusing topics
• interpret texts around key ideas
• create texts that are unified by point of view.
Manage ideas and information
• consider audience, purpose, point of view and form in presentation
• evaluate gathered information; address information gaps
• distinguish between fact and opinion.
Communicate clearly
• present ideas and opinions confidently
• use reference materials to confirm spelling and usage
• revise to add coherence and clarify meaning.
Respect and support others
• discuss ideas, people, experiences and cultural traditions in various texts
• assume a variety of roles in a group, depending on needs.
Explore thoughts and ideas
• listen and respond constructively to alternative ideas
• identify and use structural features of textbooks
• talk with others to elaborate ideas.
PHYSICAL EDUCATION
Activity
• Dance
• Games
• Types of gymnastics
• Individual activities
• Activities in alternative environments.
Benefits Health
• design and implement a personal fitness and activity plan.
Cooperation
• demonstrate etiquette and fair play.
Do It Daily... for Life!
• choose methods to achieve activity goals.
SCIENCE
Interactions and Ecosystems
Planet Earth
Plants for Food and Fibre
Structures and Forces
Heat and Temperature
SOCIAL STUDIES
Culture
Cultural Transition: A Case Study of Japan
Canada: A Bilingual and Multicultural Country
MATHEMATICS
Number Concepts and Operations
• develop a sense for integers, decimals, whole numbers
• apply arithmetic operations on decimals and integers
• use rates, ratios, decimals and percentages in solving problems.
Shape and Space
• solve problems involving the properties of circles
• link angle measures to the properties of parallel lines
• analyze patterns and designs, using congruence, symmetry, translation, rotation and reflection.
Statistics and Probability
• develop and implement a plan for the collection, display and analysis of data, using measures of variability and central tendency
• create and solve problems, using probability.
Patterns and Relations
• express patterns in terms of variables
• use expressions containing variables to make predictions
• use variables and equations as problem-solving tools.

GRADE 8 AT-A-GLANCE

HEALTH AND LIFE SKILLS

Relationship Choices
- analyze skills needed to maintain individuality within a group.

Life Learning Choices
- investigate programs related to potential careers.

Wellness Choices
- adopt goals that reflect healthy eating.

ENGLISH LANGUAGE ARTS

Comprehend various kinds of texts
- use a thesaurus to extend vocabulary
- explore choices made in planning various texts
- create texts related to current life issues
- identify creative uses of language and visuals in popular culture.

Manage ideas and information
- revise to enhance sentence variety
- make notes in point form, summarizing major ideas
- experiment with several ways to focus a topic.

Communicate clearly
- vary handwriting style and pace
- use verb tenses consistently
- present information to achieve a particular purpose
- experiment with voice, figurative language, sentence patterns.

Respect and support others
- examine the ideas of others to broaden perspective
- use inclusive language and actions that demonstrate respect
- organize and complete tasks cooperatively.

Explore thoughts and ideas
- seek out and consider diverse ideas, opinions and experiences
- pursue personal interest in specific genres
- identify and use visual and textual cues in reference materials.

PHYSICAL EDUCATION

Benefits Health
- use principles of training: frequency, intensity, duration.

Activity
- Dance
- Games
- Types of gymnastics
- Individual activities
- Activities in alternative environments.

Cooperation
- identify the positive behaviours of role models.

Do It Daily...for Life!
- develop a personal activity plan.

SCIENCE

The Mix and Flow of Matter

Freshwater and Saltwater Systems

Cells and Systems

Light and Optical Systems

Mechanical Systems

SOCIAL STUDIES

South America: A Case Study of Brazil

Geography of Canada and the United States

Canada: History to the Twentieth Century

MATHEMATICS

Number Concepts and Operations
- develop a sense for rational numbers, integers, common fractions, whole numbers
- apply arithmetic operations on rational numbers
- apply the concepts of rate, ratio, percentage and proportion.

Shape and Space
- apply indirect measurement procedures
- solve problems involving area, perimeter, surface area and volume
- use the properties of scaling, proportion and networks to analyze design problems
- apply coordinate geometry and pattern recognition.

Statistics and Probability
- collect, display and analyze data, using technology as required
- evaluate and use measures of central tendency and variability
- compare theoretical and experimental probability.

Patterns and Relations
- use patterns, variables and expressions, together with their graphs, to solve problems
- solve and verify one-step and two-step linear equations.

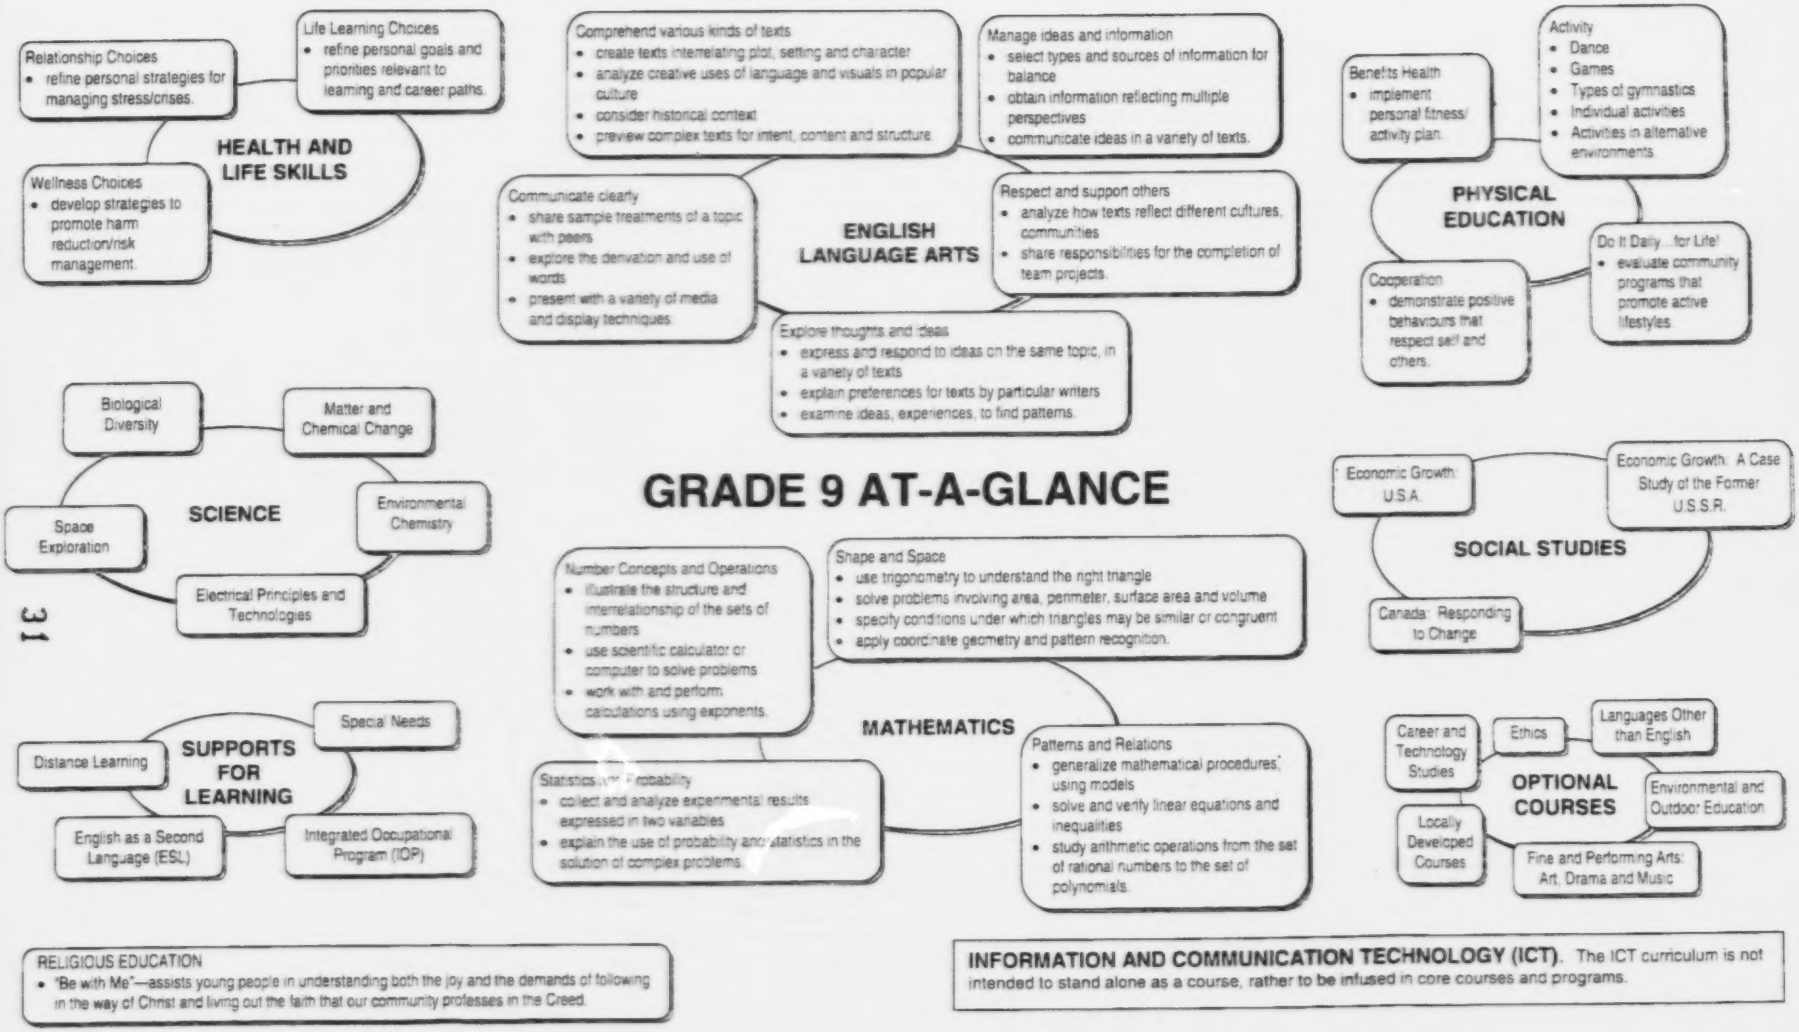
Alberta LEARNING

30

GRADE 9 AT-A-GLANCE



HEALTH AND LIFE SKILLS
Relationship Choices
• refine personal strategies for managing stress/crises.
Life Learning Choices
• refine personal goals and priorities relevant to learning and career paths.
Wellness Choices
• develop strategies to promote harm reduction/risk management.
ENGLISH LANGUAGE ARTS
Comprehend various kinds of texts
• create texts interrelating plot, setting and character
• analyze creative uses of language and visuals in popular culture
• consider historical context
• preview complex texts for intent, content and structure
Manage ideas and information
• select types and sources of information for balance
• obtain information reflecting multiple perspectives
• communicate ideas in a variety of texts.
Communicate clearly
• share sample treatments of a topic with peers
• explore the derivation and use of words
• present with a variety of media and display techniques
Respect and support others
• analyze how texts reflect different cultures, communities
• share responsibilities for the completion of team projects.
Explore thoughts and ideas
• express and respond to ideas on the same topic, in a variety of texts
• explain preferences for texts by particular writers
• examine ideas, experiences, to find patterns.
PHYSICAL EDUCATION
Benefits Health
• implement personal fitness/ activity plan.
Activity
• Dance
• Games
• Types of gymnastics
• Individual activities
• Activities in alternative environments
Cooperation
• demonstrate positive behaviours that respect self and others.
Do It Daily...for Life!
• evaluate community programs that promote active lifestyles
SCIENCE
Biological Diversity
Matter and Chemical Change
Space Exploration
Environmental Chemistry
Electrical Principles and Technologies
SOCIAL STUDIES
Economic Growth: U.S.A.
Economic Growth: A Case Study of the Former U.S.S.R.
Canada: Responding to Change
MATHEMATICS
Number Concepts and Operations
• illustrate the structure and interrelationship of the sets of numbers
• use scientific calculator or computer to solve problems
• work with and perform calculations using exponents
Shape and Space
• use trigonometry to understand the right triangle
• solve problems involving area, perimeter, surface area and volume
• specify conditions under which triangles may be similar or congruent
• apply coordinate geometry and pattern recognition.
Statistics and Probability
• collect and analyze experimental results expressed in two variables
• explain the use of probability and statistics in the solution of complex problems.
Patterns and Relations
• generalize mathematical procedures, using models
• solve and verify linear equations and inequalities
• study arithmetic operations from the set of rational numbers to the set of polynomials.

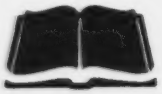
Information for Parents

Parents can access information about the curriculum and learning resources in a number of ways:

- your child's teacher or school
- Curriculum Summaries
- Curriculum Handbooks
- Programs of Study on the Alberta Learning Web site.



How Can I Help My Child At Home?

Show interest in school activities by:

- asking questions
- helping with homework and projects
- setting aside time and a place for your child to complete homework.

Use Alberta Learning and other resources produced for parents, such as

- **Make School Work for You**—*Helping junior and senior high school students become more successful learners.*
- **Working Together in Mathematics Education**—*Ways parents can support student learning in mathematics.* http://www.learning.gov.ab.ca/parents/mathprbk.pdf
- **LearnAlberta.ca Web site**—*Online multimedia learning resources that directly relate to the Alberta programs of study.* http://www.learnalberta.ca
- **TELUS 2Learn Web site**—*An education–business partnership that provides Internet inservice, support and mentorship for Alberta teachers.* http://www.2learn.ca

Schooling in Alberta

Curriculum describes what students are expected to learn. Alberta Learning develops the curriculum in consultation with teachers, administrators, parents, representatives from post-secondary institutions, and professional and community groups.

Teachers use the curriculum to plan learning activities that meet their students' needs and abilities. They regularly assess student progress, reporting to parents, students and administrators.

Provincial Diploma Examinations

Information about diploma examinations is available at all senior high schools. As well, information is available on the Alberta Learning Web site. This site includes the *General Information Bulletin, Diploma Examinations Program*, which provides the examination schedules as well as the directives related to the diploma examinations.

Religious Education

Religious Education is an essential and integral part of the life and culture of a Catholic school. For more information, contact the local school board.

Languages Other than English

- Blackfoot
- Cree
- French
- German
- Italian
- Japanese
- Latin
- Spanish
- Ukrainian
- Other

These languages may be available at your child's school. For more information, contact the local school board.
